JUNE 27, 2008

Dear Sir or Madam:

Attached hereto is a reasonable facsimile of Form PTO-1449 listing additional patents and/or other documents believed relevant, to some extent, to the subject application. It is respectfully requested that these documents be considered by the examiner and an initialed copy of each form be returned to the undersigned.

This disclosure statement should not be construed as a representation that a search has been made or that no other material information exists as defined in 37 C.F.R. Section 1.56.

It is believed that this disclosure complies with the requirements of 37 C.F.R.

Sections 1.56, 1.97, and 1.98, and the Manual of Patent Examining Procedures Section 609. If for some reason the examiner considers otherwise, it is respectfully requested that the undersigned be called so that any deficiencies can be remedied.

A copy of each document is enclosed, except for United States patents and/or United States published patent applications.

Some of the documents may have markings thereon. No significance is meant to be attached to the markings.

These documents are not necessarily analogous art. The relevance of each document will now be discussed.

### **DOCUMENTS**

Document 23 is United States Patent No. 5,163,093, wherein is disclosed a mounting for a microphone includes a plate with an opening the plate being shaped and arranged so that it holds a microphone secured in said opening with the microphone contacting a person's neck. In this position the microphone can pick up sounds produced by the person through bone conduction.

Document 24 is a published application (EPO Publication No. 0 519 621) wherein is disclosed a vibration pickup which is mounted on a helmet, a headset, a hanger, a face mask, or the like which is put on a human head. The vibration pickup is held in or out of contact with a certain region of the human head for converting voice-induced mechanical vibration of the region into an electric signal. The vibration pickup may be held against the top, an upper or lower lateral side, or a cheek region of the human head.

Document 25 is a supplementary European search report for related European application 03794691.0 – 1256 (PCT/AU0301167). The cited Japanese patent has been previously disclosed herein.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'G. S. Gray', written over a horizontal line.
